

EUROCAVE

Revelation collection

**Store,
preserve, share,
impress.**

Your wines are pampered while maturing. And to offer you the luxury of choice, for all cabinets in the *Revelation* collection, it is possible to choose the colour, size, external finish and interior layout.

Manufactured in France

Revelation.

French manufacturing.

All EuroCave wine cabinets and Tête à Tête wine by the glass solution are hand manufactured in France and come with the highest Origine France Garantie label.

Suited to your requirements

REVELATION, SINGLE-TEMPERATURE MATURING CABINET

It recreates the exact same conditions found in a natural cellar. Treat your best bottles to a cabinet that will allow them to mature in the best possible conditions.

- A constant, consistent temperature thanks to double hot-cold control (temperature gradient $\pm 0.5^{\circ}\text{C}$, temperature can be set from 5 - 20°C). Two separate thermostats ensure double protection from frost.
- Extra protection from vibration owing to the actual design of the cabinet and also a compressor which is separate from the cabinet body.
- Optimised, suitable storage.
- Suitable humidity. The walls in embossed aluminium participate in the process.
- Constant ventilation ensured by a ventilation inlet at the top and bottom of the cabinet.
- UV protection guaranteed for both the solid and glass door with highly effective UV filtration.

REVELATION, MULTI-TEMPERATURE SERVING CABINET

The serving temperature of wine is a key factor in tasting and enjoying wine in optimal conditions. *Revelation*, a wine serving cabinet, offers up to 10 temperature zones (temperature staggered from 5 - 22°C), allowing you to store, in one same cabinet, several types of wine (rosé, white, red) at an ideal serving temperature.

Showcase your fine wines

Your bottles are bathed in a gentle, UV-free amber halo of light that runs all around the cabinet body, spectacularly displaying your wine. Attention to detail – Have fun writing the names of your bottles on the detachable shelf labels¹.

¹ white marker pen provided.

A protective cocoon

Revelation's sliding shelves offer the very best in terms of wine storage. The structure of the shelf conceals all of its advanced technology under its aesthetic curves. A soft-close device allows quiet, smooth handling for your bottles. Bottle protection is enhanced further by the “*Main du Sommelier*” (Sommelier's hand) bottle support, a structure in two materials which surrounds and protects your bottles from vibration. Its design came about from working with sommeliers, so it seemed only natural to name it after them.

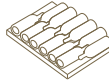

Low noise levels

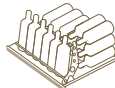

37 dB

Storage shelf 77 bottles

Sliding shelf 12 bottles

Sliding shelf with display kit 32 bottles

Give free rein to your imagination

The EuroCave difference

Because your wine drinking experience is important, EuroCave has created wine serving and storage solutions so that each tasting experience offers the full array of emotions, mirroring your encounter with the wine producer. And if, throughout the world, the best bottles are stored by EuroCave, it is because we are trail-blazers in terms of always having had this bold and passionate requirement of being the faithful interpreter of time that passes.
